[Redacted]
Acting Chief, Position Management
and Compensation Division/OPPPM

STAT

REFERENCE: Memo to C/PMCD from C/AS/FBIS, dated 30 March 1981
Subject: Vienna Wage Scale

1. Per reference memorandum concerning the Vienna Wage Scale, PMCD is prepared to move rapidly toward total classification and compensation conformity with State, once TCN employees are placed in a Saved Rate status, (where applicable), and the question of "Jubilee Payments" is clarified. It is our understanding that State is presently quantifying Jubilee Payment entitlements for FSN's at the Vienna Bureau; therefore, this concern may soon be resolved. FBIS needs only to advise us when the Saved Rate status has been made effective, and who is being placed on this scale to obtain our concurrence.

2. As you know, PMCD strongly believes that the Civil Service Retirement Benefit Plan, provided to newly hired TCN's, should be replaced with an alternate compensation package. However, the need to seek alternatives to this particular benefit will not preclude our endorsement of the new Vienna Classification Compensation Scale.

3. We appreciate your continued efforts to establish a totally conforming classification and compensation package in Vienna, and look forward to total implementation soonest.
